An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 32-42, 55-65, 82 and 83 have been canceled without prejudice.

The following is an examiner's statement of reasons for allowance: Note the Rule 132 Declaration showing that since only the R,R diastereomer IX is cleaved on oxidation with NaIO_4 forming enantiomerically pure X, furan XI(a) is formed in greater than 99% ee (i.e. enantiomeric excess) when furan imine X is treated with p-toluene sulfonic acid. This is unexpected in view of the teaching of Miao et al where use of R-phenylglycinol in Scheme 2 produces a product with a 96% ee.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bernard Dentz whose telephone number is 571-272-0683. The examiner can normally be reached on Mon.-Fri. 8AM-4:30PM.
